

Kansas's Medicaid Program is Out of Control

KS'S MEDICAID PROGRAM HAS GROWN SIGNIFICANTLY

Total Medicaid spending¹

MEDICAID IS CONSUMING KANSAS'S BUDGET

OBAMACARE EXPANSION WOULD EXPLODE KANSAS'S MEDICAID PROGRAM EVEN MORE

ObamaCare expansion states have enrolled **twice as many** able-bodied adults as promised. ²

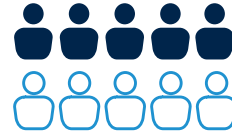

If Kansas expanded ObamaCare, **at least 343,000 new able-bodied adults could enroll**, costing taxpayers more than \$13B over 10 years. ³

OBAMACARE EXPANSION ISN'T WORKING

There are **nearly 20 million** able-bodied adults on Medicaid as a result of expansion.⁴

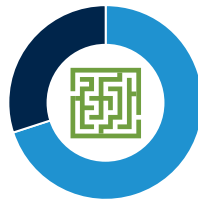

55% are not working at all.⁵

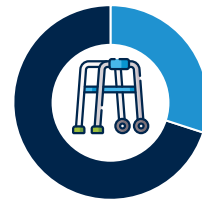

MEDICAID IS FAILING THE TRULY NEEDY

There are **6,799** truly needy individuals who are on Medicaid waiting lists in Kansas.⁶

4,512—or seven out of every 10—have developmental and intellectual disabilities.⁷

2,287—or three out of 10—have a physical disability.⁸

EXPANSION WOULD HURT KANSAS HOSPITALS

Expansion would cause **\$12.5 million in Kansas hospital shortfalls**, equal to 235 lost hospital jobs.⁹

Kansas has **more hospital beds per capita** than all nearby expansion states.¹⁰

In Arkansas, **hospitals have continued to close despite expansion**, while in Colorado hospital Medicaid shortfalls tripled after expansion.¹¹⁻¹²
